

Freedom of Information Response

Date: 21 February 2017
Log no: FOI 850

- What PAS system do you currently have in place?
Holly Ward at Hinchingsbrooke Hospital use ECAMIS and EDISCHARGE.
- Do you have any plans to change PAS system?
The Trust is looking at using SystmOne in the future
- If so, when would you look to do this?
This would be in 2017/2018
- What other systems do you use for RTT management e.g. Qlikview, Tableau
SystmOne
- Do you use 'excel-based' or 'electronic' PTL?
Currently Excel-based.
- Do you use software to manage your PTL?
No.
- If so, which PTL software do you use?
Not applicable.
- Do you have an in-house data validation team to validate and manage patient pathways?
Our informatics team validates clinical system data. The management of patient pathways is undertaken by service leads with the support of information provided by the informatics team.
- If so, is the team centralised or split up across several specialities?
The Trust has a centralised team.
- How many WTEs are in your data validation team?
6 WTEs.
- In the last two years, have you ever used external validation resources – for example, procured through a third party supplier?
No, we have not used external validation resources.
- If yes, which suppliers did you use? For what period of time were external validation resources used?
Not applicable.
- What is the procurement process for selecting external validation resources?
Not applicable.
- Please can you send a copy of your patient access policy.
Please see the [Data Protection and Access to Records policy](#) on our website.
