Coping with Crying: My Personal ICON Plan

Infant crying is normal - Remember: Babies Cry, You Can Cope

Comfort methods I can try...

Think about if the baby is hungry, tired, in need of a nappy change or unwell? Consider skin to skin contact, singing a lullaby or taking a walk outside....

Who I will call if the crying won't stop? (Include contact numbers: friends, family, midwife, health visitor & GP)

- •

What will I do if I need a few minutes to myself? What makes me feel better?

Remember: It's OK to walk away if you are feeling stressed. Return to check the baby after a few minutes

Never ever shake or hurt a baby
