

TRUST BOARD

Title:	QUALITY & CLINICAL STRATEGY
Action:	FOR APPROVAL
Meeting:	10th JANUARY 2018

Purpose:

The Quality & Clinical Strategy has been refreshed to focus on a long term approach of continuous improvement and to take account of evolving national and local priorities and our changing service portfolio. We will also focus on improving how we measure and evaluate the effectiveness of improvement interventions.

The Strategy centres on four priorities:

- Safety
- Evidence Based and Innovative Practice
- People Involvement
- Learning and Continuous Improvement

The annual implementation plans for the strategy will be based on two elements:

- Overarching trust wide activity core to each of the four priorities
- Local service level improvement activity identified for each priority through the annual service plan process.

Progress on implementation will be monitored by the Quality Improvement and Safety Committee.

Recommendation:

The Board are asked to approve the reframed Strategy
