

**APPENDIX 11 - STUDENT FEEDBACK – ARU**

There was a lot of e-learning due to Covid but it was always relevant to the placement and informative.  
(Child field student nurse Cambs 0-19)

I felt valued and received lots of support clinically and academically to meet my learning needs. (Nursing Associate Student Cambs Paediatric Community Nursing placement).

I have really enjoyed this placement, everyone has been lovely to work with and always willing to answer questions and have discussions about contacts and the issues around providing consistent and meaningful care in the community (Child field student nurse Cambs 0-19)

My supervisor and assessor were very supportive, listened to what I wanted to achieve and tried to make the placement applicable to the course. . (Nursing Associate Student Cambs Paediatric Community Nursing placement).
