### **Comparison against 2022 Improvement Plan:**

There were three areas of improvement identified last year and progress made on these as follows:

- Discrimination due to sexual orientation or disability:
  - Sexual orientation reduced from 4.4% to 2.3%
  - Disability 15.6% reduced to 15.2%
- Career Progression/Equal Opportunities view from our culturally diverse staff:
  - Increased from 46.23% to 51.20%. Disparity reduced from 23% to 19.5%
- Physical violence from members of the public/service users:
  - TBC

#### **Next Steps:**

We will develop, in partnership with you all, our staff networks and local staff side representatives, a focused plan, both Trust-wide and locally. Initial ideas include:

- Continued focus on career progression/equal opportunities for our culturally diverse members of staff
- Introduce actions to make people of all ages and abilities feel fairly treated
- Review the amount of unpaid overtime being worked and understand the underlying reasons for this.
- Review resources and training in relation to conducting appraisals
- Continue to support our staff in relation to patients/service users violence, aggression, bullying and harassment.

### **Reporting and Assurance**

- Service specific improvement plan will be reported and reviewed at our Clinical Operational Boards
- Trust wide updates will be directly to the Board via our bi-annual people strategy update – May and November
