Assurance Framework for the Integrated Governance Report

Part A

The Executive Summary to the Integrated Board Report provides an overall assessment of the level of assurance in relation to the Trust's strategic risks and operational risks at 15 and above.

Part B

The Executive Summary to the Integrated Board Report provides an overall assessment of the level of assurance in relation to the domains of safe, effective, caring, responsive and well led, using the assurance opinion categories of the Trust's internal audit programme.

The table below sets out the overarching framework for each category against each such domain tailored to the Trust's service portfolio and approach to board assurance. The framework does not and is not intended to cover all parameters set out in the CQC domains – many of these would be evidenced in other ways on an inspection such as by service visits. When services are referred to in the framework this is a whole service (ie MSK, universal children's service).

The assurance level set out in the Executive Summary relates to the two month reporting period of the Integrated Governance Report.

Domain	Assurance being sought	Ref	Lead Exec	Substantial Assurance	Reasonable Assurance	Partial Assurance	No Assurance
Safe	That our patients are protected from abuse and avoidable harm.	S1	КН	>75% patient safety incidents reported in period are no/low harm	≤75%->50% patient safety incidents reported in period are no/low harm	≤50%->25% patient safety incidents reported in period are no/low harm	≤25% patient safety incidents reported in period are no/low harm
		S2	КН	>75% of all relevant patient safety incidents, statutory duty of candour was completed or there is documented rationale for why it was not appropriate to complete.	For ≤75%-> 50% of relevant patient safety incidents, statutory duty of candour was completed or there is documented rationale for why it was not appropriate to complete.	For ≤50%->25% relevant patient safety incidents, statutory duty of candour was completed or there is documented rationale for why it was not appropriate to complete.	For ≤25% relevant patient safety incidents, statutory duty of candour was completed or there is documented rationale for why it was not appropriate to complete.
		S3	КН	Never event not reported in any service during the reporting period.	Never event not reported in any service during the reporting period and progress is being made against action plans for any previous event.	Never Event occurred in one service.	Never Event occurred in two or more services. Or similar Never Event occurred in the same service.
		S4	КН	>75% of open action plans previously reported for Serious Incidents are on target for completion.	≤75%->50% of all open action plans previously reported for Serious Incidents are on target for completion, and there	≤50%->25% of all open action plans previously reported for Serious Incidents are on target for completion, and	≤25% of all open action plans previously reported for Serious Incidents are on target for completion and there is an escalation plan in place.

			is an escalation plan in place.	there is an escalation plan in place.	
S5	AP	staffing pressures are adequately controlled with minimal impact on service delivery	staffing pressures are adequately controlled, plans agreed with commissioner for prioritising service delivery and service plans in place to reduce staffing pressures	staffing pressures resulting in reduced service delivery and no commissioner agreed plan or internal service plan in place	staffing pressures resulting in reduced service delivery and no commissioner agreed plan or internal service plan in place in same service for two or more reporting periods
S6	KH	A Staff Flu Vaccination plan is in place which includes mitigations, with a final target percentage set (for end of February 2024) Plan to be commenced by the 1st of October 2022. To be noted this is a seasonal indicator and should only be measured from Oct-Feb, with a final level of assurance highlighted in April's Board. Additionally external factors such as vaccine supply may impact on commencement timeframes	A Staff Flu Vaccination plan is in place which includes mitigation, and there is evidence that the final target (in %) will be met by the end of February 2024.	A Staff Flu Vaccination plan is in place, with some mitigations, and there is evidence that the final target (in %) will not be met by the end of February 2024.	No Staff Flu vaccination plan in place, with no mitigations, and the end final target (in %) will not be met by the end of February 2024.

	S7 KH	IPAC Assurance Framework Reviewed and fully adhered to,	IPAC Assurance Framework reviewed, gaps identified and an action plan is in place to address.	IPAC Assurance Framework reviewed, gaps identified and no plan in place to address.	IPAC Assurance Framework not reviewed, and no plan in place to address any gaps.
